EXCEPTIONAL LIVING

Exceptional Living

In order to define "Exceptional Living" we invite you to just imagine for a moment that "Exceptional" is more than just luxury. It is the right balance of space, material selection, design, views, light, sounds, smells, textures and the harmony between nature and architecture.

Careful attention to the individual elements and flawlessly understanding of the impact of each one of them individually and as an interplay creates homes where no attention to detail was missed.

From the color pallets, light-plans, interior design, climatization, confort, user-friendliness, aesthetics, safety and security to maintenance program, concierge service and countless other details, all create what we call "Exceptional". Moreover the uniqueness of being set in a high-end completely finished urbanization and its infrastructure, a cobbled drive, tropical vegetation, and ambient streetlights is unseen and hence "Exceptional".

A sneak preview

Once you pass through the man-gated security entrance with a cascade, you will drive up the cobble interior road that will lead to the Villas, after having parked your car under the roofed parking, the walkway will lead to the 7-meter-high majestic entrance. You will step into your home crossing the bridge over the water-feature leading to an antique large double door. From inside the sumptuous hallway you will notice the large open living room that boasts the most breath taking views to the tropical forest and the Atlantic Ocean. The living is 12 meters wide, offers a double ceiling height, windows from floor to ceiling and an open plan to the exterior living terrace, connecting to the left reveals itself a large sleek Italian kitchen. Indoor dining, exterior dining, a walk-in fridge, pantry and a laundry room complete this section of the house. Outside you will enjoy large terraces that will invite you to use the romantic cosy fire-pit, the sunken pool bar or the fully equipped exterior kitchen. The pool in the centre of residence offers a Jacuzzi area and is designed as an infinity pool. The ground floor level further offers two large guest suites. After you have mounted the modern open staircase you will land in the library area that overlooks the open floor to the living room. To the right there are two further large guest suites and to the left you enter the semi open plan main suite of 60 m² offering a sunrise through the large windows that will be hard to forget. Only the best materials have been selected for this bespoke home. You will never want to leave.... Welcome home, welcome to Pangea

Pangea SRL is a family-run property developer with European roots. We design and build houses that feel like homes. With over 65 years of international experience under the belt in many European and South-American countries, we are proud to be soon releasing our first residential high-end villa project in the Dominican Republic where Exceptional Living is our Credo. Our residences are sold in a turnkey condition. Fully furnished inside and out with complete interior design and tailored fittings

While every project is a world on its own, our base philosophy will never change. We believe: "a home should be somewhere you are at ease from the moment you walk in"

The place where everything from the interior, the feeling of your feet touching the floor and even the fragrance of the surroundings should make you feel relaxed and warmly embraced.
